

Week 3 — Visualisation & correlation

- Lecture slides
- NotebookMind demo course
- Use $\leftarrow$ / $\rightarrow$ to navigate

Correlation

- Pearson correlation, $-1..1$
- `corr()` matrices
- `idxmax` / `idxmin`

Correlation is not causation

- Confounders
- Why our demo IS causal
- Interpreting coefficients

Plotting with matplotlib

- figure & axes
- scatter, bar, hist
- Labels, titles, colour

Lab: scatter & insights

- Colour by a third variable
- Reading trends
- Wrap-up
